

AN APPLICATION FOR IMAGING GUIDANCE

SYNERGY
RADIOLOGY ASSOCIATES.®

WHAT IS SYNERGY RADIOLOGY ASSOCIATE'S APPLICATION FOR IMAGING GUIDANCE?

It's an educational tool for physicians ordering a radiology exam. The app serves to simplify the process and provide clear, concise guidelines and recommendations.

It helps answer questions specific to each case, like whether a CT or MRI is indicated, or if the use of contrast would be beneficial. It provides useful information for exam preps and CPT codes, as well as special instructions. It can pinpoint where specific exams are offered within Synergy Radiology's network and provide each location's address, scheduling phone number and driving directions.

The app also offers the option of contacting a radiologist when further clarification is needed.

HOW DO I ACCESS THE APP?

The web-based app is available at synergyrad.org/app, and because it operates on a website, there is nothing to download. It can be accessed anywhere by smartphone, tablet or desktop computer, as long as a wireless or mobile data signal is available.

SAVE THE APP TO YOUR MOBILE DEVICE

If you'd like to save the app to your mobile device for easy access, visit synergyrad.org/app then follow the directions below based on the device you have.

Apple IOS: While viewing the home page of the Synergy app in your mobile browser, select the "share" icon on the bottom of the browser. This will pull up a list of menu items/icons on your device. Select "Add to homescreen" and the app will be saved as an icon on your home screen.

Android: While viewing the home page of the Synergy app in your mobile browser, open the browser's "share" or "option" menu. This will pull up a list of menu items. Select "Add to homescreen" and the app will be saved as an icon on your home screen. (The menu can be accessed by pressing the menu hardware button if your device has one, or by tapping the top right menu icon.)

FEATURES OF THE APPLICATION

The Synergy Radiology Application for Imaging Guidance has many useful functions:

WHAT TO ORDER

The app provides guidance by taking the user down a pathway: body area, indication, or recommended exam. By clicking on the exam under consideration, the user can access information on exam preps, CPT code(s) and special instructions, as well as locations that offer the exam.

EXAM DETAILS BY MODALITY

For office staff or providers that do not order exams, but need specific details about a given exam, details can be searched by modality: CT, MRI, ultrasound, etc.

LOCATIONS

All locations in the Synergy Radiology network are organized by service offering. The app provides contact information and driving directions once a location is selected.

SCHEDULING

Users can access scheduling phone numbers for each service line in Synergy Radiology's network.

REACH A RADIOLOGIST

The app provides a quick link to the radiologist hotline, (713) 621-1103. This hotline is available for users during normal business hours, M-F, 8a-5p and provides a resource for users to be able to reach a subspecialized radiologist to ask questions or request guidance.

FEEDBACK

Users will also find a convenient feedback form in the app. If questions or issues arise while using the app, Synergy Radiology welcomes feedback. A form and an email will be sent directly to the administrator of the app and any issues will be addressed.

FREQUENTLY ASKED QUESTIONS

Q. *Is there a cost?*

A. No, the Synergy Radiology app is completely free.

Q. *Do I need a login?*

A. The first time you visit the site, you will simply need to provide your name and email address and you will be given immediate access to the app.

Q. *Is the app only available on iPhone/Apple?*

A. No, the app is available on all devices (Apple, Android, Blackberry, etc) and because the app operates on a website, it is compatible with any platform, including desktop computers.

Q. *I don't see the indication I'm looking for. What do I do?*

A. The app is designed to answer the most common questions, but not ALL questions. If you do not see the indication you are looking for, one of our radiologists will be available to answer questions. Please call (713) 621-1103 during business hours, M-F, 8a-5p.

Q. *How do I get updates?*

A. The updates will come automatically. Because the app is built like a website, all updates happen in real time.

CONTACT US.

For more information or to have one of our Synergy Reps visit your office for a live demo of the app, please contact us at Synergy Radiology.
